8:00 AM to 4:00 PM

Instructor: Johnny Bhullar, Caltrans HQ Traffic Operations

To register (& location info), contact:

Marsha Davenport via e-mail: marsha_davenport@dot.ca.gov

Topics Include:

- California MUTCD Introduction, General & Basic Concepts
- Part 2 – Signs
- Part 3 - Markings
- Part 6 – Temporary Traffic Control (in Work Zones)
- Older Driver & Pedestrian Issues
- Recent & Upcoming Changes for California MUTCD
- Proposed amendments for the next edition of the National MUTCD

For course content questions, contact: mutcdsupp@dot.ca.gov

NOTE: *The primary area of focus for this class is Signs, Markings & Temporary Traffic Control. It will not cover other major topics, such as traffic signals, traffic control in school areas, bicycle facilities or the railroad and light rail transit environments.*

Description:

This class will familiarize participants with the new format, applicability and compliance aspects of the California MUTCD. It will emphasize application areas of the California MUTCD that often pose difficulties or have significant professional differences and also where California practice differs substantially from Federal practices.

Some recently adopted policies per CHP's Older Californian Traffic Safety Task Force related to older drivers and pedestrians will be highlighted. The class will also cover some recent changes that have been recommended for inclusion into the California MUTCD.

Attendees will be exposed to some of the amendments that have been proposed by FHWA for inclusion into the next edition of the National MUTCD.

Participants are encouraged to submit any questions or key issues they wish to be covered in this class in advance to mutcdsupp@dot.ca.gov
